

# EVENT CATERING

*Fuelling the World's Biggest Events.*

Working alongside global event catering companies, our event catering team has been behind the scenes of many of the catering programs for the world's largest events, providing a range of services from facility design concept, site feasibility, supplier appointment, operational strategy development, through to site build and operational delivery.

Event catering is one of the most challenging service areas to plan and deliver for event organisers. Each locality has unique culinary acclaims and every event has a distinct range of client groups that have diversified menus from venue concession catering to high-end hospitality. This diversity is no more evident than in athlete village catering programs, which need to cater to the nutritional, religious and cultural requirements of athletes and officials from all over the world.

Our catering professionals have been responsible for planning, directing and controlling the delivery of high quality event catering and hospitality services to world class major events, including Olympic Games, both summer and winter, Commonwealth Games, international tournaments and corporate events.

## CATERING PROGRAM PLANNING

Planning your catering program is a comprehensive process from reviewing and providing input into the technical requirements from federations, through to the development of needs assessment templates for event constituent groups (athletes, officials, workforce, sponsors, VIP, spectators) and the development of a catering vision in line with your own mission, values and goals. All of this is translated into a scope of service development which is mapped with milestones, validated against catering program budgets and supported by appropriate risk and mitigation planning.

## CATERING PROJECT MANAGEMENT

Our project and catering managers play an integral role in the delivering of your event catering program, including but not limited to, the development of tender documents including scope of services, capability assessments of catering contractor/s, procurement & contracts management, forecasting of volume and consumption for meal projections, development of catering policies and procedures including health & safety as well as the site management for logistics operations.

## *Our Track Record*

- FIFA Confederations Cup, 2013
- AFL European Challenge, London 2012
- Vancouver Winter Olympic Games, 2010
- Lexus Luxury Edition Roadshow, 2007
