

EVENT SECURITY AND SAFETY

Keeping your event stakeholders secure and safe.

Event security is a must have requirement in today's major event environment and we have a team of industry leaders with expertise in planning and delivering major event security programmes. We work closely with event organisers and government stakeholders to define a comprehensive venue security strategy, scope and delivery solution for your event. We combine our unique experience in the security sector with hands on event operational experience to assist event organisers plan for physical security systems requirements and event safety.

HOW WE DELIVER EVENT SECURITY AND SAFETY

At EPG we have a team of experts, including experienced project and cost managers, with vast experience in all the critical facets of security & safety at major international events, from event security infrastructure, through to spectator safety management and overall health and safety.

Our team has a proven understanding of the total event landscape, which provides us with a unique understanding of how the security and safety function impacts other functional area operations. It is this experience which enables us to offer a wide range of event security & safety services from completing initial strategic security reviews to developing full turnkey security infrastructure solutions for an event.

SECURITY INFRASTRUCTURE

In today's event environment there is an ever increasing demand for security infrastructure systems to be defined, managed and implemented. An appropriate security infrastructure solution depends on the level of risk accepted by you as the event owner and your key stakeholders. Our team of experts will work thorough a robust risk assessment process to establish and addresses all of your event's individual needs.

SPECTATOR SAFETY MANAGEMENT

Often referred to as the "Face of the Games" the Spectator Service team is often the largest workforce at any event with a huge responsibility for spectator safety. At EPG we can provide strategic advice in the early stages of planning and also assist in the management and delivery of the spectator services program, crowd management strategies and event safety plan to ensure spectator safety and experience is of the highest standard in all venue and public domain areas.

HEALTH & SAFETY

At EPG we have a wealth of experience in providing strategic health and safety planning for major events, which is essential in establishing the approach and framework for creating an incident free event environment. Most recently we provided full health & safety advisory services to the London organising committee of the Olympic & Paralympic Games (LOCOG) for the planning phase and games time operations phase for the event. We have also supported the Glasgow 2014 Commonwealth Games in the development of their strategic health & safety plan.
